

Network Meetings to Inspire and Inform
Bradford and Beyond Primary Maths Subject Leaders

BE PART OF IT

Hosted by Sharon Day

2019 – 2020

For the third year running, this series of four afternoon workshops, spread across the academic year, is for Bradford (and beyond) subject leaders of mathematics. It will provide them with the opportunity to update, network and develop. The sessions will keep them up to speed with new initiatives and there will also be bespoke elements to the sessions as the content will be built around meeting identified needs within your own school. Agendas will be set by the mathematics subject leaders attending which will be complemented by messages, ideas and resources that the course leader will share with them. Maths subject leaders from the schools who attended during 2017-18 and 2018-19 are signing up again, so join us and **be part of it.**

- The training will take the form of four afternoon sessions, spread across the academic year.
- The cost is £200 for the year's support.
- The venue for the sessions are yet to be decided – it is hoped that schools taking part will offer to host, thereby showcasing their own school to other delegates

Our first session will take place at Newby Primary School, Ryan St, Bradford BD5 7DQ

Sessions	Date	Time	Venue
Session 1	Thursday 12 th September	1:30 – 3:30 pm	Newby Primary School
Session 2	Thursday 12 th December	1:30 – 3:30 pm	to be decided
